WHO YOU'RE PARTNERING WITH

Tony Hildén

CEO & Founder, LocalEnhance

"You already sell AI solutions to US business owners. This is the same motion, with a proven system and real commission behind it."

LocalEnhance runs local SEO, GEO (AI-search visibility), review generation, content and websites for 140+ businesses. Built and proven in the Philippines, now expanding into the US with you leading it.

This is your specific negotiated rate, not the standard partner term: **25% of the retainer, recurring for 18 months**. Tracked in our own CRM, not a spreadsheet someone forgets to update.

Your own network on top

COMPLETELY PASSIVE

Our best referrer
earns this *every*
single month.

No ad spend, no delivery work, no ongoing effort. **They made the introductions. We did the rest.** Commission per referral stacks every time a new client signs — and every person you recruit onto your own team stacks on top of that.

**Per month, from past introductions
alone**

This is one real partner's current run-rate — not a projection. It compounds every time they send another intro.

WHAT YOUR CONTACTS ARE UP AGAINST

Every business you know is *losing to this.*

You already know a business owner who complains about one of these. That complaint is your opening — and our job.

INVISIBLE ONLINE

"Customers can't find us"

Outdated hours, no photos, no posts — while the competitor down the street shows up first on Maps.

BLEEDING TO COMMISSIONS

15–25% to Booking / Agoda / GrabFood

Every order or booking through DoorDash, Uber Eats, Booking or Agoda is margin handed away. Direct discovery keeps it in-house.

REVIEWS, IGNORED

Few, old, or badly managed

70%+ of consumers say reviews and profile accuracy are crucial to where they choose to go.

ABSENT FROM AI SEARCH

Invisible to ChatGPT & Gemini

When customers ask an AI assistant for a recommendation, businesses with no GEO presence simply don't get mentioned.

WHAT LOCALENHANCE ACTUALLY DOES

The in-house team they can't *afford to hire.*

Done-for-you, every week. The owner
does nothing — we run all of it.

Full Google Business Profile management — plus a real website.

Optimize and actively manage the profile, post weekly, build reviews, and make the business show up for "near me" searches and every menu item or service they sell.

- Weekly SEO-tuned posts
- Review generation + AI-assisted responses
- GEO — AI-overview & ChatGPT visibility

Accurate info, everywhere

Consistent hours, menus and details across every platform — always current.

Professional website

Fast, technically sound, built to convert search traffic into calls and visits.

Direct bookings

Less reliance on OTA commissions — customers book straight through Google.

Monthly reporting

Plain-English proof of what changed — so the owner (and you) can see it working.

YOU'RE A FIT FOR ALL THREE

Three ways to *partner with us.*

Most partners pick one lane. Between your network and your own AI-consulting book, you're positioned for all three at once, and they stack.

25%

your base rate, 18 months

30%

if the client prepays a year

+15%

override on every sub-rep deal

A

Refer & earn passively

Anyone in the US market you know who owns a local business. Make a warm intro, we run the audit and close the deal, you collect 25% every month for 18 months. Zero ongoing work.

B

Upgrade your own clients

You're already selling AI and website solutions to US business owners, most of it built on templates. Where a client has outgrown that, bring them the real thing. We deliver end-to-end, you keep the relationship and earn on the upgrade.

C

Build your own team

Recruit sub-reps at 10%. You keep a 15% override on everything they close, on top of anything you close yourself. This is also how the equity milestones get reached, because they measure your whole book, not only what you close yourself. There's a ready-to-send 10% deck for recruiting, see below.

THE MECHANIC, IN PLAIN NUMBERS

25% of the retainer.
Every month.
Up to 30%.

Paid **only once the client pays**, never on a lead that doesn't sign. Eighteen months on every client you bring in directly, six months longer than our standard partner term. Get six months upfront and you earn 27.5%. A full year upfront takes you to 30%.

A 3-location restaurant group on our **₱35k/location** plan → **₱105,000/month** billed.

₱26,250

EVERY MONTH. ₱31,500 IF THEY PREPAY THE YEAR

A sub-rep on your team closes a **₱80,000/month** client. They earn 10%, you earn your override.

₱12,000

YOUR 15% OVERRIDE, EVERY MONTH

WHY PARTNERS STICK WITH THIS

Built to be worth *your reputation.*

01

Proven results

Real, named businesses with triple-digit growth — you're not vouching for a promise.

02

18 months, plus equity

25% for a year and a half on every client you bring in. Then 1.5% of the company, vesting over three years.

03

Zero cost, zero effort

You make the intro. We do 100% of the audit, the pitch, the delivery, and the reporting.

04

We do the qualifying

The free audit filters good fits from bad ones — you never have to pitch or sell.

YOU DON'T NEED TO PITCH

Send the *intro.* We'll do the rest.

Three questions tell you it's a good fit: is it a real, established local business (5+ staff) in your market, in a target industry, and could they spend meaningfully more than a template website costs? Yes to all three — send it our way.

"Hey [Owner], you should talk to LocalEnhance — they get businesses like yours showing up first on Google and Maps and handle all of it for you. Want me to connect you? Free audit, no pressure."
